HONGRONG, JANUARY 14TH, 1876.

An important piece of news has come down from the north. A correspondent of one of our Shanghai contemporaries announces that the coal mines some thirty miles beyond Kin- Ho Ashan, a prisoner, who died in the gaol kiang, and two or three miles from the banks of that great river highway, the Yangtaze, are to be worked, as soon as possible, by the debility, and that, in his opinion, death had Lum Keen did so, and got shelter for and Lee Tek Too, the manager, had nothing latest foreign appliances. To this end the Authorities have secured the services of Mr. S. J. MORRIS, C.E., by whom the shaft of the now famous Takasinia Mine in Japan wassunk. Mr. Morris left Shanghai for the scene of his new operations in the steamship Fusigama on the Chinese workmen to Acheen, a telegram has their clothes to get food, and many have been misrepresentation for which he is liable, or it 6th instant. If this infor nation be correct—and there seems no reason to doubt it—China is about to take a considerable stride in the path of Progress It is very possible that the profitable develop- evening, commencing at eight o'clock :ment of the Japanese mines has been the main cause leading to what would appear to be a rather sudden determination on the Grand March..... "Le Prophete"...... part of the Chinese Authorities. Latterly Japanese coal has been acquiring more and more prominence in the Shanghai market, until it has almost succeeded in shutting out other varieties. This fact would not pass unnoticed by the Chinese, who are keen enough in business, however obstructive and stupid they may be in resisting reform and improvement. The oft-repeated advice of the foreign Press None, however, was voucheafed to him; and Lee Test to proceed to various places in to fourteen days hard about. might pass unheeded, but when a fact probably, the public will be obliged to wait order to obtain 40 labourers who are required is demonstrated by proof of this kind—they know the exact facts in connection with 1875. It is probable that the attention they are bestowing on their defensive armaments will prove the means of leading them into the adoption of other and far more important Western improvements. Thus the establishment of new Arsenals causes an increased demand for coal, and it becomes an object with the officials to procure it as cheaply as possible. There may be unworked deposits of the mineral in the immediate vicinity of an Arsonal. and naturally the question arises why should not the supplies needed for its use be drawn from them. Thus it may happen, and probably will, that these great and costly works will indirectly be one means of breaking down prejudice and bringing about the gradual development of the mineral resources of the Empire. The Choug Shinbun of the 27th ultimo thus discourses on the sale of Japanese Antiquities: -It is a general custom in civilized countries to attach value to old vessels and to favour antiquities. But in Japan there has of late years sprung up aschool of students which have learnt something of the European languages and sciences and care for nothing but recent discoveries and think it folly and superstition to esteem the things of old time. Do they not know that in the countries of Europe there are many persons, who are anxious to search for ratios as a means to improve their knowledge of the past ? There are many and various relies in our country, as there are in Europe. But all of them and those other things of value which have been imported from China will be drained out of our own to foreign countries within the next ten years, leaving nothing for ourselves. Then, in the future. when we have gained knowledge of their value review at Zosbigaya. He was accompanied by and we want to look for them, none of them Sanjo, Okubo, Arisugawa, Enshimi, and the obliged to visit the various exhibitious in Europe, if we want to see and buy Japanese antiquities. What atter folly for persons to part with their property and have then to beg the new owners to let them see it! Why should we part with our ouriosities P. We have esteemed them very much from youth up. But owing to the circumstances of trade during the last ten years, they have constantly drained away to foreign countries. When their price fell very low, in the time of the revolution quite one. third of them left our country. Since that time most costly and curious things bave continued to fall into the hands of foreigners. Although we cannot count the numbers of things thus lost to the country we have three proofs to show that great numbers have gone into foreign conntries. General Post Office, Hongkong, 13th January, 1876.

His Excellency Governor Sir ARTHUR ED-WARD KENNEDY, K.C.M.G., C.B., is pleased to direct that the Rates of Postage chargeable on letters forwarded by French Packet shall be lowered as follows, viz. :— To or from Ports of North-

ern China and Japan....to 8 cents-per 1 oz. To India, Ceylon, Saigon, Pondicherry, and Aden to 12 cents per 1 oz.

-Arrangements have been made for the Registration of Correspondence exchanged between the United States of America and this Colony by Pacific Mail Packets of the Occidental and Oriental Steam Ship Company. The Registration Fee is 8 cents for each letter, over and above the Postage. This fee, as well as the Postage, must be prepaid. No letters can be Registered after 2 P.M. on

the day of departure of the Mail. The Post Office of Victoria (Australia) having given notice to the General Post Office in London that articles of Jewellery received in that Colony are chargeable with Customs Duties, the undersigned considers it necessary to make this Regulation known to the Public, and to state that any letters or packets containing such articles sent through the Post are liable,

with their contents, to be forfeited. The Postmaster at San Francisco has given notice that letters despatched from this Colony (whether through the Post Office, or as consignees letters) by the United States Mail Packets, will not be forwarded to any places not within the United States unless the proper Postage from America to such places be prepaid in American Postage Stamps, but will be returned to this Office.

Such letters should either be prepaid in both Hougkong and American Stumps as above, or posted to an Agent in the United States.

This notice chiefly applies to the following places, the American rates of Postage to which are as follows:--NEWS-

Office not sealed, that is to say, the box is fastened with scaling wax, but there is no impression of a seal. The attention of bexbelders is called to the necessity of carefully sealing such boxes with some recognisable seal, and of sending a 'Ohitbook or receipt with them. The omission of the latter precaution leaves a doubt as to weather the contents of the box ever reached the Post Office: the omission of the former, as to whether part of them might not have been abstracted for the sake of the Postage Stamps. It is not generally possible to count the letters sent in scaled boxes (except where there are only three or four) and therefore the Post Office receipt to such an entry as, "47 for London, 15 for Calcutta, 8 for Penang, 5 for Singapore," must be taken to mean no more than what is stated. viz., that one box was duly
